Plasma Ion Currency Sterilizer

ABOUT Plasma Ion Currency Sterilizer

As recently, **CoronaVirus, MERS, Ebola virus, New flu virus, Food poisoning, general germs,** etc has spread throughout the world, the worldwide interests in the sterilization is rising.

To resolve this, we have developed **PLASMA MONEY STERILIZER** sterilizing and disinfecting **money(bills, coins)** transmitting germs or bacteria in our living. It can be used for banks, post offices, large shopping malls, markets or all cash transaction places.

Especially, the **PLASMA MONEY STERILIZER is the World's First Opened Bill Sterilizer** which **removes Bacterial fine dust(PM 2.5) and kills 99.9% of germs in 30 seconds** with sterilizer opened using our own developed **Plasma ion cluster** for the disinfection & sterilization in the air, instead of utilizing the existing UV ray or germicide methods.

We, a leader in the next generation sterilizer market have proven technical ability of **PLASMA MONEY STERILIZER** through multiple **design and patent applications**. And we will do our utmost to keep currency hygienic for the citizens of the world to lead healthier lives.

Currency contamination beyond our imagination!

We live in a world of contaminants, germs, viruses, bacteria, etc..

Plasma Ion Currency Sterilizer assists against these!

All these, plus more, contaminate our currency beyond imagination!

Our currency and other currencies around the world carry over
3,000 different types of germs.

Such as viruses, bacteria, food borne pathogens, etc.

The currency bills we use and process are made of paper and fiber!

Which is one of the best environments for micro-organisms to grow
and prosper!

Why do we need it?

- There is a great need for the Plasma Ion Currency Sterilizer!
- We are always touching something – wherever we go: work place, school, church, shopping, dining, etc.
- And the one thing that is in common with almost all these things is money – currency!
- In a publication of NYU: they stated that the bills have an environment for micro- organisms to live in!
- Furthermore, contaminants don't only live there, but proliferate!
- So, over 3,000 different types of germs such as virus, bacteria, general germs, mold, etc., are found there!
- Note: Disease prevention of financial institute's employees and National Health Protection due to contamination of bills!
- Sanitary matters, dust removal!
- Removal of unknown contaminants of bills!
- Safe and Healthy Environment for customers and staff!

Applications in general:

- Bank associates working on the teller-lines – consistently making contact with customers!
- All employees in financial institute and retail handling money!
- VIP customers and all customers visiting the financial institutions!
- All people handling bills (Mart, Department Store, Casion, etc.)

Where to use!

Banks, Credit Unions, all types of Markets, Schools, Casinos, Hospitals, Churches, Retail and Wholesale Markets!

FUNCTIONS

World First **Open-Sterilizer** **Different only one Developed**
Sterilization and Removal of Bacterial fine dust upon counting bills...
20 sec. - 98% / 30 sec. - 99.9%

- **Sterilization**
- **Dedusting/Deodorizing/Decontaminating**
- **Quick sterilization using Plasma ion cluster**
- **Sterilization upon counting bills**
(20 sec- 98% / 30 sec - 99.9% Sterilization)
- **Sterilization harmless to human body**
- **Hand Sterilization**

When counting bills, Plasma ion cluster penetrates between bills and sterilizes bills

Applied HEPA filter to remove fine dust(PM2.5) on bills

Tilted slot, ergonomic design – Easy to insert bills and shoot by camera

High efficiency sterilizing design

PLASMA MONEY STERILIZER operates by auto recognition upon inserting bills

Semi-permanent high efficiency PLASMA MONEY STERILIZER

Built-in communication UTP and POWER line

Automatic sterilization timer setting

Low maintenance cost

FUNCTIONS AND SPECIFICATION:

▶ **Auto-recognition sensor**

- Works upon inserting bills

▶ **Plasma ion cluster vent**

- Circulating type Sterilization Release Plasma ion cluster

▶ **Automatic Timer Setting**

▶ **Antibacterial HEPA filter**

- Fitted with HEPA filter **removing bacterial fine dust (PM2.5) on bills**

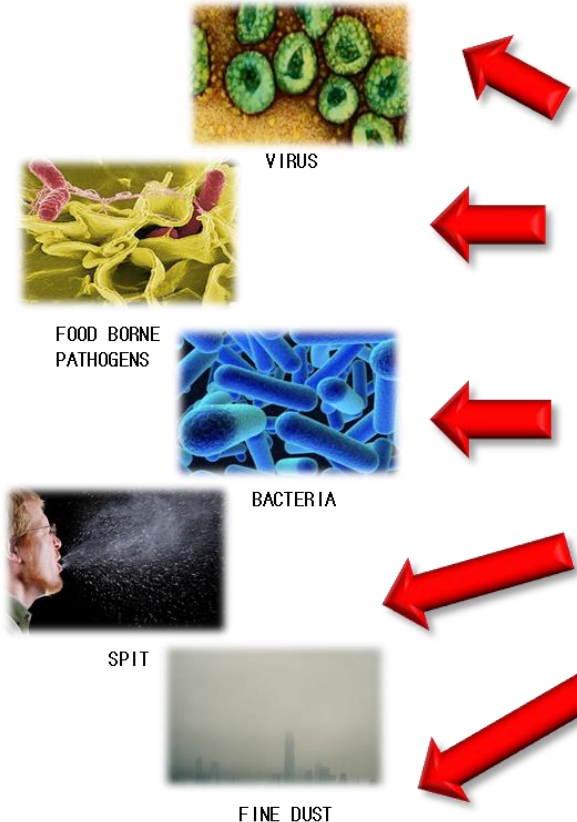

▶ **UTP/POWER**

- Built-in Communication line

BILL! CONTAMINANTS BEYOND IMAGINATION

BILL CONTAMINANTS ! BEYOND IMAGINATION

Bill contains...
Bacterial Fine Dust
And over 3,000
different types of
germs such as virus,
bacteria, food borne
pathogens, etc.

Bills made of
paper and fiber
have the best
environment for
microorganism to
grow
